02/2002 - 06/2002	Siat - architects and engineers, Munich, Germany www.siat.de

During my studies at the Technical University of Munich I worked continuously for 5 years half-time or during the semester breaks in different offices to get workexperience. Since then I have been working for offices like Foster + Partners in London, GMP in Frankfurt and SSF Ingenieure in Munich.

I have been instructed in all areas of office practice from general administration, to design work and to document and contract administration.

Over the years of employment I was given an increasing level of responsibility on diverse projects, in all types of scale.
